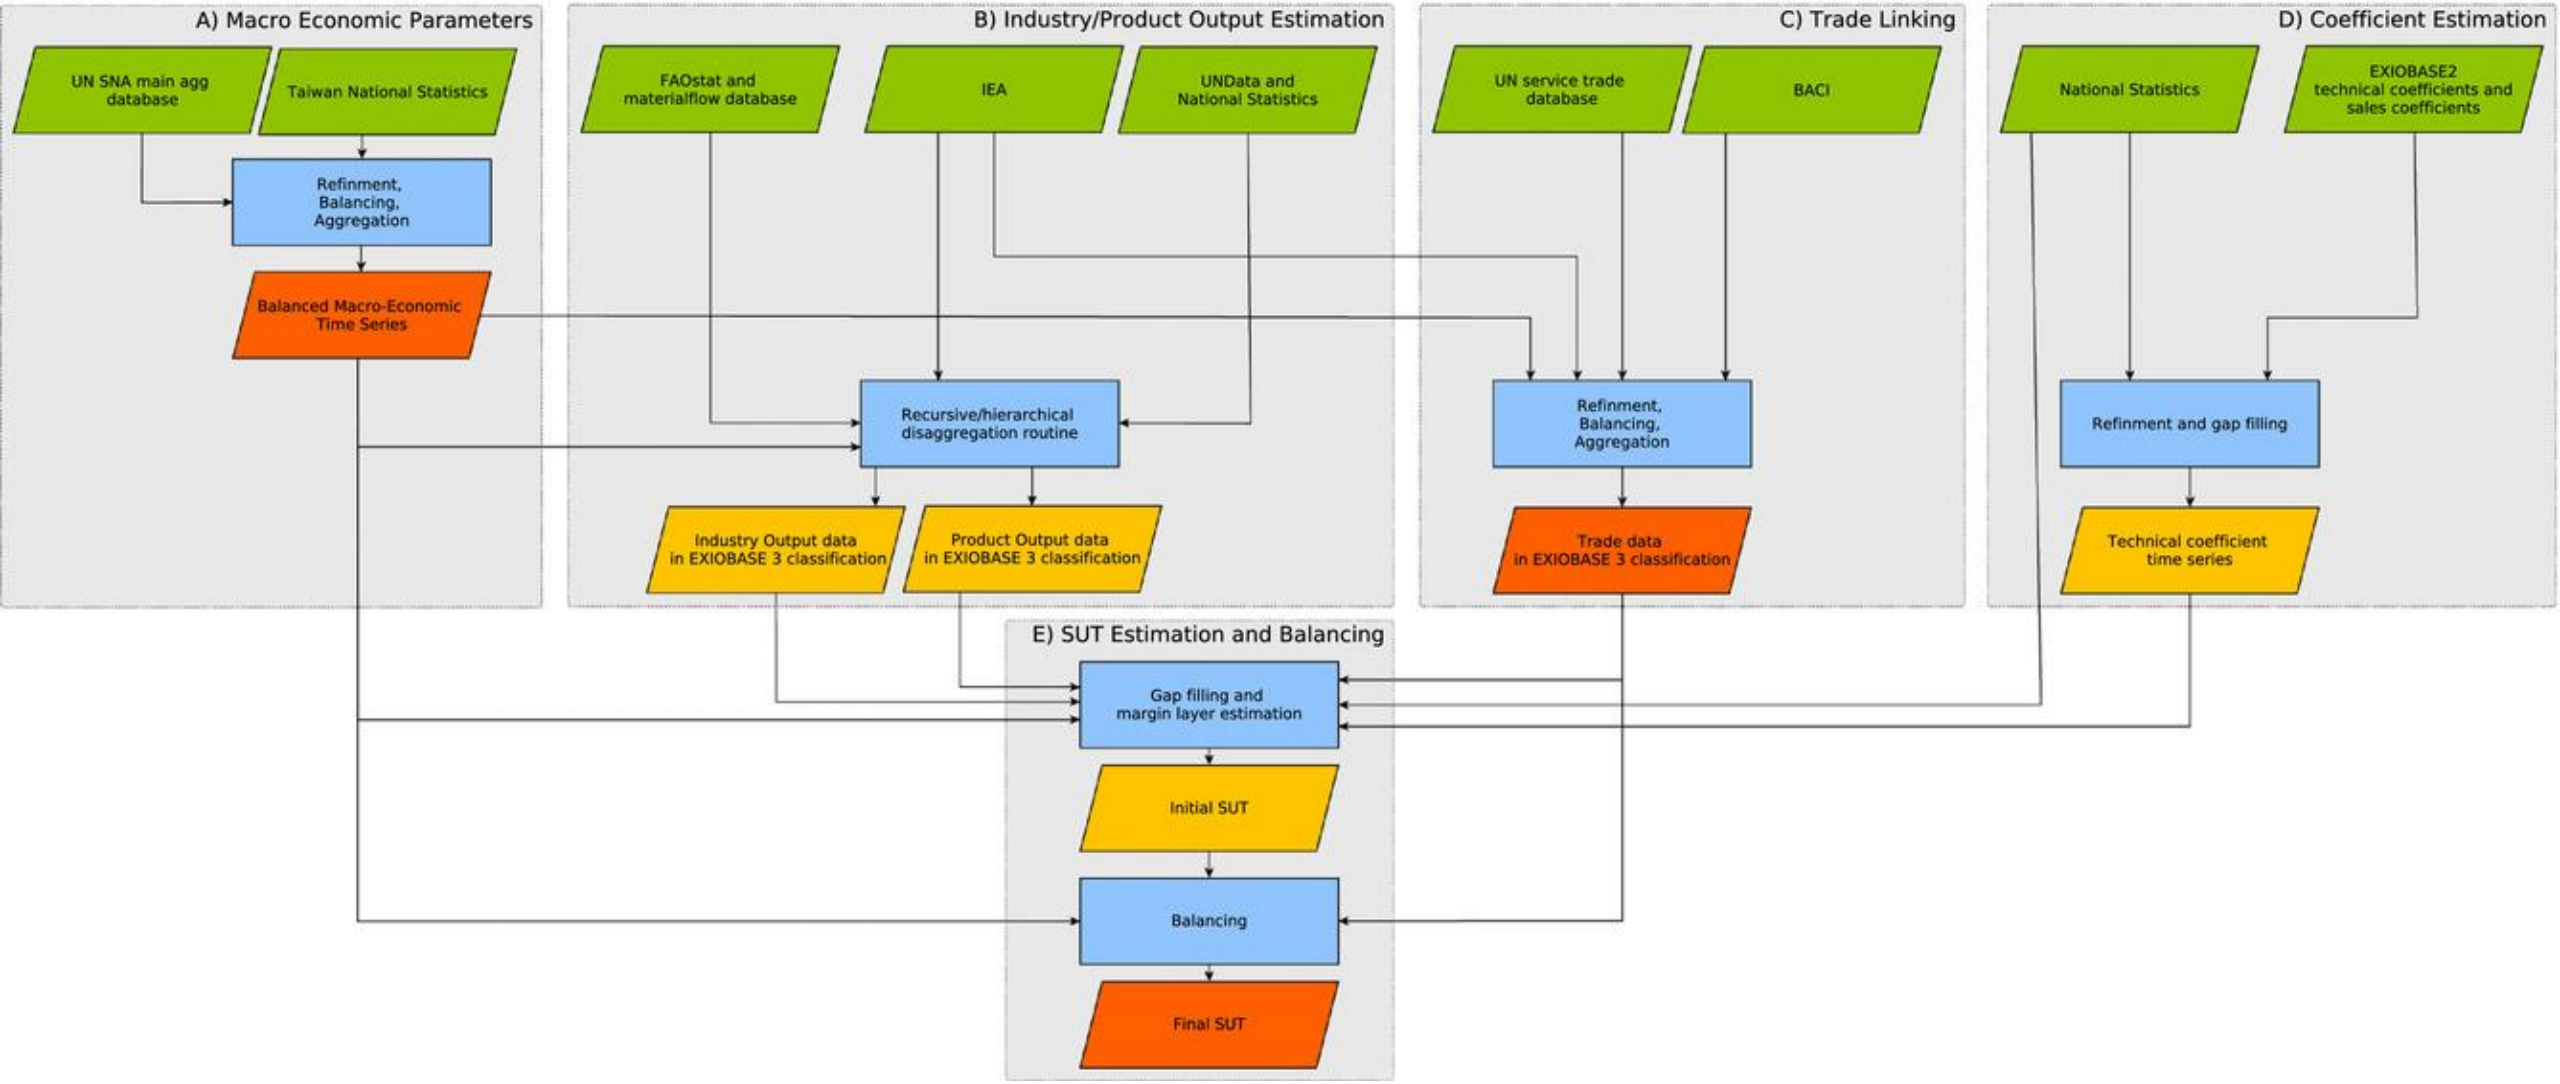
A



A) Macro Economic Parameters
UN SNA main agg database
Taiwan National Statistics
Refinment, Balancing, Aggregation
Balanced Macro-Economic Time Series
B) Industry/Product Output Estimation
FAOstat and materialflow database
IEA
UNData and National Statistics
Recursive/hierarchical disaggregation routine
Industry Output data in EXIOBASE 3 classification
Product Output data in EXIOBASE 3 classification
C) Trade Linking
UN service trade database
BACI
Refinment, Balancing, Aggregation
Trade data in EXIOBASE 3 classification
D) Coefficient Estimation
National Statistics
EXIOBASE2 technical coefficients and sales coefficients
Refinment and gap filling
Technical coefficient time series
E) SUT Estimation and Balancing
Gap filling and margin layer estimation
Initial SUT
Balancing
Final SUT
